Sumica™
pearlescent pigments

First choice for new formulations
Sudarshan is the leading producer in India of pearlescent pigments. We manufacture the full range of general purpose and high performance pearlescent effect pigments, specializing in our own unique hi-sparkle products.

We benefit from being located right on the doorstep of the primary producers of some of the best naturally occurring mica in the world. Our access to the best raw material enables us to produce products with superior lustre, color purity and smoother texture.

Our proprietary technology produces effect pigments with low heavy metal content and color consistency, from batch to batch.

Our Sumica™ range is ideal for all general purpose paints & coatings, inks and plastics applications.

Disclaimer: The information included here is based on the most reliable data generated by our laboratories. Since the performance of a pigment also depends on the additives and polymers used, we recommend that customers should test the suitability of the pigment for their end application. However, if we are provided with testing methods and samples, we would be glad to do the same. We will do our best to provide products of consistent quality, within the scope of the general conditions of sale and delivery. Should, in spite of these precautions, any liability be established, the damage, if any will be limited to the value of the goods delivered by us and used by you.
