

Welcome to the February 2022 edition of Sudarshan's 'Color by Design' monthly newsletter. Each year Chinese New Year, or Spring Festival, falls on a different day in January or February depending on the position of the moon. The Rat, Ox, Tiger, Rabbit, Dragon, Snake, Horse, Goat, Monkey, Rooster, Dog and Pig make up the animals in the Chinese Zodiac, which runs on a 12-year cycle. Every Spring Festival, one of the 12 animals is celebrated for that year, paired with one of the five elements, water, wood, fire, earth, or metal. The 2022 Chinese year starts on January 30 and is calculated to be the year of the Water Tiger. Accordingly, we'll see a lot of tigers in Chinese art, fashion, and pop culture. The Tiger, known as the king of beasts in China, represents great strength, fearlessness, bravery, and forcefulness.

## ARE YOU A TIGER? Check out below facts...

If you were born in 2022, 2010, 1986, 1974, 1962 and every 12 years previous, you are a Tiger. 2022 is a year of the Water Tiger. It starts from February 1st, 2022 and ends on January 21st, 2023. A Water Tiger year occurs every 60 years.
