

Welcome to the May 2021 edition of Sudarshan's 'Color by Design' monthly newsletter. We hope that you gotten your Covid19 vaccines! Let's all fight back and bring life back to normal. So, what's your plan for this **Mother's Day** (9th May 2021)?

We are sure you are treating the mothers in your life to something special for all they do. Why not treat her to an at-home manicure?? Sounds interesting! Freshly-filed nails and a flawless new polish color will make her feel like a million bucks. Our **NA Sales Manager Alison Griffin**, and her hometown is Philadelphia, sent this photo of how this holiday originated in this city. Philadelphia is known as the City of Brotherly Love, but it could also be called the City of Motherly Love. That is because Mother's Day was founded by Philadelphian Anna Jarvis in 1908. Philly has hundreds of historic markers all over the city.
