

Responsible Care Policy

We at Sudarshan Chemical Industries Limited are committed to operate and maintain our facility in an environmentally responsible & safe manner with continual improvement in our SHE performance by,

- Identifying, assessing and minimizing risks to the employees and surroundings.
- Setting objectives to continually improve the performance in SHE.
- Complying with all the applicable SHE legislation and other requirements to which organization subscribes.
- Adopting suitable safety and environmental practices and proactive measures to minimize associated hazards and risk arising due to our industrial activities.
- Designing our processes and plant operations to minimize risks & wastages.
- Enhancing the skill and competence of our employees through appropriate training.
- Optimizing the consumption of energy and natural resources.
- Maintaining Safety, Health & Environment Management Systems in accordance with OHSAS: 18001:1999 and ISO: 14001: 2004 version.
- We shall communicate this policy to all our employees, contractors, vendors and shall make it available to all interested parties.
